LECI HOLDING LTD_ PLANT TOOL HIRE

2.5T Pallet Truck, 1.1m, Hydraulic c/w Brake

Designed to move palletised loads on flat and even surfaces. We stock a range of different sized units with standard, extra wide and extra long forks, plus non-marking wheels for sensitive environments.

Tec Spec and quote upon request

Tower-light, 9m Mast.

These compact, diesel lighting towers provide high levels of illumination for outdoor areas and are commonly used for construction sites,

Tec Spec and quote upon request

Acrow Props, 1.04- 4.88m

These adjustable steel acrow props will safely support beams, joists, walls, ceilings and temporary floors during demolition work.

Tec Spec and quote upon request

Duct Rodding System (Cobra Reel), 120m x 9mm

Our 'Cobra Reel' duct rodding system is used for installing cables in ducts, threading draw ropes through pipes or surveying drains with a video camera.

Tec Spec and quote upon request

Drain Testing Plug/Stopper, 50- 150mm

Simple, screw design drain stoppers available in a range of sizes.

Tec Spec and quote upon request

Air Bag Drain Stopper, 75/100/150mm

For fast and easy manual inflation of our Air Bag Drain Stoppers, these pumps are fitted with a 1/2" BSP or a Schrader valve connector.

Tec Spec and quote upon request

LECI HOLDING LTD_ PLANT TOOL HIRE

Drain Testing Kit

When used with the appropriate plugs/stoppers, this kit completes air tests on sections of pipework according to the Building Regulations guidelines.

Tec Spec and quote upon request

Banding Machine

This hand-operated banding machine makes light work of securing a wide range of packages and boxes, using banding tape and clips.

Tec Spec and quote upon request

Cable Avoidance Tool (C.A.T.)

These lightweight and robust detectors will scan an intended excavation area for power, radio and generator signals, pinpointing the location of buried utilities.

Tec Spec and quote upon request

Crane Kerb Grab/Lifter, 500kg

A universal grab for crane handling of kerb stones and blocks on site. A simple catch mechanism enables ease of use and accuracy, especially when laying stones into position.

Tec Spec and quote upon request

Pedestrian Barrier System, 2.0m

These injection moulded barriers offer a robust and sturdy system for securing temporary roadworks, excavations and other site hazards which pose a potential risk to pedestrians.

Tec Spec and quote upon request

Crowd Control Barrier

These robust steel barriers easily interlock, making them perfect for cordoning off large areas and creating pedestrian walkways.

Tec Spec and quote upon request

LECI HOLDING LTD_ PLANT TOOL HIRE

Temporary Fencing, 2.0m Anti-climb

Our range of 'Heras' fencing provides an effective temporary security solution which is quick to assemble, adjust and take down.

Tec Spec and quote upon request

Diesel Bowers, Towable/Stackable

These fully bunded, diesel bowers are supplied either as towable or stackable units. They can be transported full with no extra driver training required

Tec Spec and quote upon request

Towable Welfare Cabin

This sixteen foot, towable, self-powered welfare cabin provides all of the facilities needed for a small to medium-sized project.

Tec Spec and quote upon request

Welfare/Office & tool storage containers

Various sizes to suite your requirements
